- Development of study specific plans in cooperation with Project Manager and sponsor
- Prepare trial submission material for applications to Ethics Committee and review Regulatory Submission Packages
- Performing feasibility and assessing suitability of clinical trial sites
- Perform site initiation, monitoring and close-out visits
- Participate in the Risk Based Quality Management process with focus on the monitoring strategy
- Coordinate data cleaning activities in cooperation with data management
- Training and supervision of CRAs in trial specific processes and perform co-monitoring visits
- Function as Lead CRA if a trial has multiple sites including proactive site management and oversight

The qualifications of the Senior CRA:

- B.Sc. in the life sciences field or related discipline and a minimum of 3-4 years in a similar position in the pharmaceutical industry/Biotech/CRO
- Knowledge of GCP guidelines, applicable regulatory requirements, medical terminology and clinical trial processes
- Willingness to travel

- Excellent communication skills (written and verbal) in English
- Experience with multi-country and multi-center trials
- Ability to translate client's needs into solid deliveries
- Ability to work independently
- Ability to supervise and coach non-senior personnel within the group

We offer:

- Work within different therapeutic areas and with tasks of varying complexity
- Work with a heterogeneous client pool (pharmaceutical companies, established biotech, inexperienced biotech, investigators/academia)
- Build international client relations
- Use and elaborate your competences and experience
- Work in an interactive, flexible and positive working environment
